

# Self Guided Tree ID

This activity is brought to you by the Pocahontas Chapter of the Virginia Master Naturalist and can be done in the Oak Hill Picnic Area and along Forest Exploration Trail

Be sure your phone has a QR scanner. Follow the trails and scan the marked trees.

You'll be taken to the PlantsMap website to learn more. Share your favorite tree with #FDH2021

# Life in an Inch:

## A Self Guided Biodiversity Survey

Discover the number of different plant and animal species living in Pocahontas State Park by sampling ONE square inch of park habitat. See how exciting and easy it is to experiment like an ecologist.

Simply **pick** a park habitat to observe. Randomly **place** a 1x1 inch square on the ground (can be made from sticks) and **record** or **draw** all the plants and animals inside your square in the square below.
